

WE ARE MANUFACTURERS

FAME S.A. is located in the Ferreyra Industrial Plant in the city of Córdoba, in the heart of Argentina. It started its activity in the refrigeration industry in 2002 with the manufacture of ice cream coolers under the FAM brand.

Subsequently, it joined the development of cold wells, freezers, horizontal displays and vertical displays of low and medium temperature, reflecting the growth in its structure and capacity.

FAM brand products are built according to current standards and are highly positioned in the market for their quality and durability.

Our manufacturing processes employ appropriate technology and high quality materials to create products to create products that preserve food freshness, reduce operating reduce operating costs and minimize environmental impact.
